PROFILE

I am a second-year B.Tech IT student at Anna University, seeking an internship opportunity at an esteemed organization. My academic excellence and strong aptitude for coding complex programs using Python are evident in my coursework and coding projects. I have also gained valuable experience through a workshop on Artificial Intelligence conducted by industry experts and a national-level workshop on AI using VLSI designing. I also have a knack for designing web pages using visual basics 6.0. I am committed to continuously improving my communication skills and actively seek opportunities to enhance them.

INTERESTS

I possess a strong aptitude for coding complex programs using Python language, and have completed several coding projects which showcase my skills. In addition, I have participated in a workshop on Artificial Intelligence conducted by Top Engineers, who are alumni of MIT. It provided me with a valuable opportunity to learn from industry experts and gain hands-on experience in this field. I have also attended a national level workshop on AI using VLSI designing.

Furthermore, I am continuously working on improving my communication skills, which I believe are a critical aspect of any professional environment. I regularly read editorials and watch YouTube videos on communication skills to hone my abilities in this area.
